“ A few days ago you turned a year old with your sister. Oh how I wished you was here to celebrate with us baby boy I miss you so much. In just the short time you was with us you filled my heart with such joy too meet you and hold you in my arms. It breaks my heart every second you are not with us growing up and changing. Ayiden mommy loves you so much it could never be explained in words. I miss you with every part of me. Happy birthday baby boy mommy loves you forever and though we are apart in this life we are never apart in my heart.
