“*I met Mike, his wife, and some of his family a few years when he attended one of the annual Houston GasBuddy reunions. "PistolPete" and I quickly established a connection and talked about his days growing up in San Diego, California and his upcoming reunion. Unfortunately, work had him move to Bartlesville, Oklahoma and we did not see each other anymore, but did keep in touch via email and the gas site.*

We will miss you, Mike! Rest in peace, buddy!

“ Please accept my heartfelt condolences. I have worked with Mike over the last 5 years at COP. He was always genuinely interested in the situations and issues at work and you always knew when Mike was working on something -- it was going to be handled. He was a "can do" guy and I know many people he worked with looked up to him for experience. He will be missed by so many.
