“ Johnny was my cousin, but he was so much more than that to me. When my divorced Mom and I moved to Bartlesville, Johnny voluntarily became my big brother, mentor and best friend. I was 12 and had a lot of growing up to do. Johnny made sure I chose the right paths and was always there for me as I dealt with typical teenage problems. Norma was also there with her wisdom, sense of humor and unconditional kindness.

When I turned 16, Johnny actually gave me my first car. It was a beautiful, 1947, green Chevy. It was his first car too and his pride and joy.

At 75, I have a ton of regrets, but at the very top of that list is one that's hurting my heart the most as I write this tribute. I never told Johnny how much I admired and respected him and how grateful I was that he and Norma were in my life.

Rest in peace Johnny.

“ So sorry to learn of John’s passing and extend my sympathy to the family. I remember when you had the shoe repair shop in Pennington Hills. I always treasure the time Norma and I worked in Benefits at Phillips many years ago.
